Allowable Subject Matter

Claim 1-18, 24-43, and 45-67 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 8 is allowable over Claim 1 of Patent 6681184 issued to the current applicant because claim 8 includes the limitation of "cross-correlating a selected seismic data trace included in said gather with said pilot trace to estimate the time shift in said selected seismic data trace resulting from velocity anisotropy in the earth's subsurface." Claim 1 of patent 6681184 does not include the limitation that the time shift is estimated from velocity anisotropy in the earth's subsurface. Claim 1 of patent 6681184 also includes limitations of selecting a plurality of time windows, whereas claim 8 of the current application performs all tasks within a time window.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
